

iThemba Academy

“Learning is something that occurs our entire life during all of our waking hours.”

Charlotte Mason, 19th Century educator

THE iTHEMBA ACADEMY

Situated on a unique site with breathtaking views of the Valley of 1000 Hills our innovative primary school, the iThemba Academy, offers **exceptional schooling** to girls and boys from Grade 0 to Grade 3.

This independent Christian school aims to ensure that the potential of each child is **nurtured to its full**. Our teaching body realises the uniqueness of every child and focuses on enhancing and celebrating the individual, thereby inspiring independent thought and creative expression.

Children are taught in bright, friendly classrooms receiving personalised attention to stimulate young minds. With the care of loving teachers in small classes, time is set aside to focus on each child to grow his or her confidence and leadership skills.

The development of a sound character and healthy values in children are a priority of the iThemba Academy, thereby providing a strong foundation for life.

A school of excellence
in Hillcrest, nurturing potential.

Every child is noticed and nurtured, with the aim to grow confidence and leadership skills.

NURTURING UNLIMITED POTENTIAL

Fostering a holistic deep rooted love of learning is the educational intention of the teachers, supported by integration and acceptance. Through the combination of top class teacher interaction, technology and a wide offering of extra-curricular activities, children at various academic levels will have the opportunity to share and celebrate their individual strengths.

Unique to the iThemba Academy is a multilevel academic strategy which caters for children of mixed ability, allowing each child to advance at his or her own pace in a structured, yet creative environment.

Located on 40 spectacular acres, surrounded by indigenous flora and fauna, the iThemba Academy embraces its distinctive position and offers the best of the outdoors. Interacting directly with nature, in the company of friends and teachers, children will learn to appreciate the environment and responsible citizenship. Partnerships with leading schools in the community allow the children access to additional top sports facilities and cultural opportunities.

We warmly invite you to visit us and view the iThemba Academy and our beautiful campus first hand. Please contact us on (031) 766 8300 or email gavin.kruger@focusonithemba.org for more information.
